PROFESSIONAL SUMMARY

Computer Hardware Engineering diploma student with a 9.71 CGPA and working knowledge of Python, C, Java, JavaScript and PHP. Built a database-driven college resource management application and is developing an AI/ML-based ransomware detection system. Certified in AI/ML Telecom Data Analysis (NSDC, Skill India). Seeking an entry-level role in software development (backend or frontend), hardware, or IoT.

EDUCATION

Diploma in Computer Hardware Engineering (Lateral Entry) | 2025 – 2027 (Expected)

Government Polytechnic College, Attingal, Kerala

- CGPA: 9.71 (Semester 3 SGPA: 9.41, Semester 4 SGPA: 10.0)

Higher Secondary (Plus Two) | 2024

- Score: 78.67%

Secondary School (SSLC / 10th) | 2022

- Result: Full A+

TECHNICAL SKILLS

- **Programming Languages:** Python, C, Java, JavaScript, PHP
- **Database:** MySQL (intermediate), SQL, Database Management
- **Networking:** Networking fundamentals (intermediate)
- **Hardware:** Computer hardware fundamentals
- **AI/ML and Data:** Data Analysis, NumPy, Machine Learning (ML), Artificial Intelligence (AI)
- **Core Competencies:** Backend Development, Frontend Development, Software Development, Cybersecurity Awareness, Problem Solving, Hardware and IoT Fundamentals

PROJECTS

Resotrack – College Resource Management System | Python, MySQL

- Built a college resource analyzer where admins add and analyze stock arriving at the college.
- Added features for users to submit suggestions and complaints.
- Stored and managed resource and complaint data in a MySQL database.

Early Ransomware Detection System for Windows | Python, NumPy, AI/ML, watchdog | In Progress

- Researching and designing a system to detect ransomware activity early on Windows.
- Selected the technology stack: Python, NumPy, watchdog and AI/ML techniques for monitoring file activity and detecting threats.

CERTIFICATIONS AND ACHIEVEMENTS

- **AI/ML Telecom Data Analyst –** Certified by NSDC (Skill India) through the Board of Vocational Higher Secondary Examinations, Kerala
- **Hackathon (2026) –** Participated up to district level in a hackathon by IEDC and Kerala Startup Mission
